

WHO WE ARE

Gateways Services for Families with Special Needs Society is a new non-profit organization in the South Cariboo run by a board of directors and parents that want to see change in services for special needs children in our area. We are creating more services for children with all types of special needs and funding levels. Gateways Services works with children 6 to 18 years old. Tailored to each family's requests, we provide homeschooled EA support, BI intervention, life skills through individual and group programs and peer social groups. We also assist parents in system navigation including support for doctors and school appointments, completing paperwork, finding respite support and planning for the future.
